Title: Potential Regulatory Frameworks for Power Reactors

Date(s) and Time(s): February 25, 2020, 02:00 PM to 05:00 PM

Location: NRC Three White Flint North, 1C03
11601 Landsdown Street
Rockville, MD

Category: This is a Category 3 meeting. Public participation is actively sought for this meeting to fully engage the public in a discussion of regulatory issues.

Purpose: The purpose of this meeting is to discuss the potential creation of a regulatory framework for the resumption of operation for decommissioning power reactors, deferred status for operating reactors, and reinstatement of terminated combined licenses. Input from this meeting may be used by the NRC to inform its determination regarding a petition for rulemaking (PRM-50-117; Docket ID: NRC-2019-0063).

The NRC staff is interested in public input on these topics, but emphasizes that this will be a high level, conceptual discussion and not a detailed technical discussion of potential regulatory frameworks. NRC welcomes this opportunity for informal and frank engagement with you on these topics but will not be providing a written response to any insights offered at the meeting. NRC is not requesting written comment at this time.
